OFFICE POLICIES

1. Your copayment, insurance allowable deductible, and coinsurance amount are due at the time of service. Amounts not paid at the time of service will be subject to a late fee 10 days from the date of service. It is your responsibility to know your insurance benefits. Benefits given to us by your insurance company are "quotes" only and are no guarantee of payment. Our office is an approved site to provide VFC vaccines on behalf of the health department. Any patient eligible for these vaccines will have them given here. We are required by the state that the given vaccines are entered into the on line state Children and Hoosiers Immunization Registry Program. Effective 7/1/15, all vaccines, private and VFC stock will be entered into the on line state registry. We require that your child be seen for a complete well child physical examination and receive vaccines as recommended by the American Academy of Pediatrics. Well child visits occur as listed below:

1 or 2 weeks	4 months	12 months
1 month	6 months	15 months
2 months	9 months	18 months

   then, at 2 years of age, 2 ½ years and then yearly after that.
   School, daycare, or sports forms will not be completed if patient is not up to date on this well care schedule. Indiana High School Athletic Association requires children from middle school age through high school to have their annual exam done April 1st or after each year. Non compliance with our well child policy will result in discharge from the practice.
2. It is in your child's best interest that he be seen before antibiotics are prescribed and in light of that, prescriptions for antibiotics are not routinely called in without an examination.
3. Patients are seen by appointment only. We ask you to schedule an appointment for all children needing to be examined. Siblings brought in with another child will not be seen, as this causes delays in patients who are waiting that already have an appointment. Children will be seen on a walk in basis for emergencies only; this does not include routine sickness.
4. Routine telephone questions will be answered by nursing personnel after consulting the physician. The doctor will answer questions requiring their expertise only or the physician feels a direct phone call back to the parent necessary. The physician call back will be at their earliest convenience, unless an emergency indicates otherwise.
5. Your child will see the same physician for all well care examinations unless scheduling issues arise which will be determined by a physician during peak seasons.
6. There will be a charge plus postage fee for copying of medical records. This fee is not billable to your insurance company. There are fees associated with the completion of daycare, school, sports, camp, etc. forms. A fee also applies to the completion of FMLA paperwork. Fees for forms must be paid in advance of forms being completed. Form fees are not billable to your insurance company.
7. **PATIENTS ASSIGNMENT AND AUTHORIZATION TO RELEASE INFO FOR PAYMENT**: To the extent necessary to determine liability for payment and to obtain reimbursement, I authorize release of any information regarding services rendered and a allow a photocopy of my signature to be used to file insurance and direct by insurer to issue payment for all medical and or surgical benefits to me for services rendered, direct to the provider. This assignment and authorizations will remain in effect until revoked by me in writing. I understand that I am financially responsible for the fees for all services rendered. In addition, I/we hereby designate Southpointe Pediatrics, PC and its employees as my/our representative to file grievances and to represent me/us in accordance with the Indiana Code, Title 27, Chapters 8 and 13. I have read the above and fully understand the terms thereof.
8. My signature below acknowledges my receipt of this facility's Notice of Privacy Practices.
9. I, the undersigned parent or legal guardian of this minor, or myself do hereby authorize and consent to any medical exam or treatment rendered under the general or special supervision of a duly licensed physician, licensed under the provisions of the laws in the State of Indiana. It is understood that this authorization is given in advance of any specific diagnosis, treatment or medical care being required but is given to provide authority and power to render care, which the physician in the exercise of his best judgement may deem advisable. It is understood that effort shall be made to contact a parent or legal guardian prior to rendering treatment to the patient, if consent for someone other than the parent or legal guardian to bring the child in was not obtained, but that any of the above treatment will not be withhold if the parent or legal guardian cannot be reached.
10. While we recognize a number of genders/sexes, many insurance companies and legal entities do not. Please be aware that your child's legal name and sex assigned at birth will be used on documents in our office. IE: charts, chart notes, correspondence, billing and insurance filings.
